Autism STAR Pty Ltd

Malcolm Mayfield is a certified practitioner of Neuro Linguistic Programming, a qualified presenter and trainer, and co-author and Australian distributor of the AAPC book "[The Hidden Curriculum of Getting and Keeping a Job: Navigating the Social Landscape of Employment.](#)"

Malcolm received a diagnosis of Asperger Syndrome at the age of 37. This event led him to deeply analyse how his Aspergers had shaped his life in comparison to others on the autism spectrum. He identified key strategies that could be used to assist adults with autism and Asperger Syndrome into and within the workforce. Autism STAR Pty Ltd was created to deliver those strategies.

Autism STAR Pty Ltd provides services to individuals and groups to promote and enhance the engagement of autism and Asperger Syndrome within the employment sector. Such services are tailored to the needs of the individual or group.

Autism STAR also provides consulting services to organisations and educational institutions that are involved in the training, placement and employment of people on the autism spectrum.

Autism STAR's [Understanding Autism workshops](#) are held throughout Australia and are available to groups on demand.
